

Carbon Reduction Plan

Carbon Reduction Plan – Version 4.0

- **Supplier Name:** OscarTech UK
- **Company Registration:** 09196814
- **VAT Number:** 257256095
- **Publication Date:** May 2026
- **Next Review Date:** May 2027
- **Reporting Standard:** PPN 06/21

1. Commitment to Achieving Net Zero

OscarTech UK is committed to achieving Net Zero greenhouse gas emissions by 2043 across Scope 1, Scope 2 and applicable Scope 3 emissions.

OscarTech UK operates an annual Carbon Reduction Plan publication cycle, with plans reviewed and updated each October as part of the company's ESG governance framework.

OscarTech UK supports NHS Net Zero ambitions including:

- Net Zero directly controlled emissions by 2040
- Net Zero supply chain emissions by 2045

Our previous Carbon Reduction Plan established our Net Zero commitment and baseline emissions reporting.

2. Organisational Environmental Commitment

OscarTech UK integrates sustainability into:

- Procurement and supplier selection
- Logistics and distribution planning
- Product lifecycle management
- Packaging and waste reduction
- Business travel and hybrid working policies

Environmental performance is monitored at Director level and incorporated into corporate governance and risk management.

3. Methodology and Reporting Boundary

OscarTech UK calculates and reports greenhouse gas emissions in accordance with:

- GHG Protocol Corporate Accounting and Reporting Standard
- UK Government Greenhouse Gas Conversion Factors
- Streamlined Energy and Carbon Reporting (SECR) requirements
- PPN 06/21 Carbon Reduction Plan Technical Standard

Organisational Boundary

The Carbon Reduction Plan covers all UK operational activities under OscarTech UK company registration.

Operational Boundary

The following emission scopes are included:

Scope 1 – Direct Emissions

- Company vehicle fuel usage
- Direct fuel combustion at operational locations

Scope 2 – Indirect Energy Emissions

- Purchased electricity consumption
- Energy used at operational premises

Scope 3 – Value Chain Emissions (Relevant Categories)

- Purchased goods and services
- Upstream and downstream transportation
- Business travel
- Waste generated in operations

Scope 3 remains the largest emission category due to the nature of medical supply distribution and logistics.

4. Baseline Emissions Footprint

Baseline Period: October 2023 – October 2024

Scope	Emissions (CO₂e)
Scope 1	14,678
Scope 2	42,567
Scope 3	342,078
Total Emissions	399,323

Baseline emissions were formally calculated and reported during this period.

5. Current Emissions Reporting (Post-Baseline Period)

Reporting Period: October 2024 – October 2025

Scope	Emissions (CO₂e)
Scope 1	10658
Scope 2	39256
Scope 3	302456
Total Emissions	352,370

This represents an approximate reduction in total emissions compared to the baseline reporting period, demonstrating early progress in operational efficiency, logistics optimisation and supplier engagement initiatives.

6. Carbon Reduction Targets-Organisation Wide Targets

Year Reduction vs Baseline

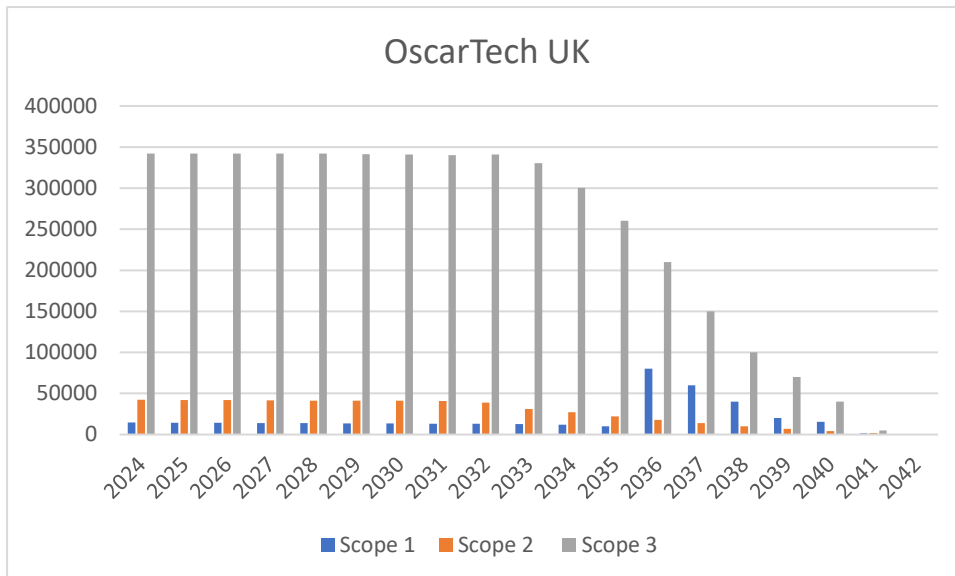

2030 30% Reduction

2035 50% Reduction

2040 75% Reduction

2043 Net Zero

7. Emissions Reduction Pathway (Projection Graph)

The reporting year emissions (2024–2025) represent actual calculated emissions based on internal ESG reporting processes.

8. Carbon Reduction Initiatives

Energy & Facilities

- Renewable electricity transition
- Smart energy monitoring rollout

Fleet & Travel

- EV transition roadmap
- Remote working and travel optimisation

Supply Chain

- Supplier sustainability assessment
- Packaging reduction programme
- Digital documentation transition

Circular economy initiatives remain part of long-term sustainability strategy.

9. NHS Net Zero Supplier Alignment

OscarTech UK supports NHS sustainability objectives through:

Sustainable Procurement

- Environmental performance review of suppliers
- Preference for low carbon manufacturers

Low Carbon Logistics

- Delivery consolidation
- Route optimisation
- Reduced air freight reliance

Product Lifecycle Support

- Promotion of repair and reuse services supporting NHS waste reduction goals

10. Social Value and Environmental Impact

OscarTech UK contributes environmental social value through:

- Supporting NHS waste reduction objectives
- Extending product life through repair-first service model
- Supporting UK-based distribution networks
- Reducing paper consumption through digital-first documentation

11. Measurement, Reporting and Governance

OscarTech UK will:

- Measure emissions annually
- Review performance quarterly
- Publish updated CRP annually each October
- Maintain Board level sustainability oversight

12. Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with:

- PPN 06/21
- GHG Protocol Corporate Standard
- SECR Reporting Requirements
- NHS Net Zero Supplier Roadmap

OscarTech UK does not operate a formal Board structure. Therefore, this Carbon Reduction Plan has been formally reviewed and approved by the Company Director in accordance with PPN 06/21 requirements.

Signed on behalf of the Supplier: OscarTech UK
